### NIGHT DISPATCHES.

Items from the Battle-Field.

WASHINGTON, May 10.—The following is extracted from a private letter of a member of General Sedgwick's staff.

General Sedgwick's staff are all right so far. We have been fighting three days with rather favorable results. Several of Grant's staff are killed or wounded. General Getty, commanding Second Division, is wounded; also Lieutenant Fox, of his staff. The latter, speaking of the capture of General Seymour, says he behaved gallantly, but his brigade was outflanked last evening, and broke. It was the same that ran at Mine Run last fall.

There are no casualties in Burnside's staff as reported. General Sedgwick was shot in a skirmish near Spotsylvania. A ball entered his eye, killing him instantly.

BENSON HENDERSON, Va., May 10.—(Via Ft. Monroe)—General Beauregard commanded in person during the fight—Our forces drove the enemy back three miles—nearly to Petersburg. We held the Railroad between Richmond and Petersburg. General Kautz's cavalry succeeded in destroying a portion of the Petersburg & Fredericksburg Railroad at Hick's Ford, and captured many rebel prisoners.

#### Dispatch from Grant.

WASHINGTON, May 10.—To General Dix Dispatches have been received this afternoon from General Grant, dated one o'clock yesterday. The enemy have made a stand at Spotsylvania C. H. There had been some hard fighting, but no general battle had taken place there. The army is represented to be in excellent condition, and with ample supplies. Generals Robinson and Morris are wounded. No other casualties to general officers are reported. General Wright has been placed in command of Sedgwick's corps. General Grant did not design to resume the attack to day, being engaged in replenishing from the supply train, so as to advance without it.

[Signed] E. M. STANTON,  
Secretary of War.

Fighting at Spotsylvania on Monday—awful casualty list.

WASHINGTON, May 10.—A messenger got in last night from the army who left Spotsylvania yesterday and came on horseback to Aquia creek, and then came here on the Aquia Creek railroad. At 12 o'clock the fight was going on at Spotsylvania Court House. We held the place at that hour, and Lee gave evidence of being weakened and failing back. The messenger had an escort of one hundred and fifty cavalry, and as guerrillas were frequently encountered on the way, it is not improbable that some of the escort were captured when returning to the army. Our wounded are loosely estimated at 15,000 most of whom are at Fredericksburg and Southwick; that they are lying in the streets and upon the pavements. A cavalry patrol ordered out could not do duty as it was difficult to pass between the rows of wounded without trampling upon them. It is said there are between two thousand and three thousand rebels wounded there, also who were left upon the battle field.

#### Further Details of the Battles.

WASHINGTON, May 10.—A special to the Commercial states that it is said the rebels have a large entrenched depot of supplies on the North Anne line of defenses, towards which point Lee was directing his retreat. Grant, in following him, will be leaving his base of supplies at some distance, but his men have rationed for several days with them.

WASHINGTON, May 10.—A special to the World says advices from the front to 3 o'clock yesterday afternoon are received. On Sunday Warren encountered Lee's rear guard at Spotsylvania C. H. A sharp fight immediately ensued. Our troops were at first repulsed, but rallying, advanced with great impetuosity, upon the enemy driving him beyond the Court House. On Monday an artillery duel was opened and kept up south of Spotsylvania.

#### The Race for Richmond.

WASHINGTON, May 10.—Darling is said to have been captured by our forces. Butler is moving on to Richmond on the south side of James river. Grant and Butler are evidently running a race for the capture of the rebel capital, and Grant is a little ahead, and the chances are that he will be first to enter it. He has but one day's short marching to accomplish it.

#### Gen. Seymour Unfortunate.

WASHINGTON, May 10.—About ninety men and five officers are left of the Fourth Vermont Regiment.

General Seymour (recently from Florida) is a prisoner. His brigade was outflanked and broken. No man fought more gallantly or bravely, but it seems that he was unfortunate with his troops.

#### Troops from the North.

WASHINGTON, May 10.—The preparations for wounded in the recent battles are most perfect. The weather is cool and there is no rain—both of which are favorable conditions for General Grant. Troops are constantly arriving here from the North.

#### Gen. Sedgwick Killed.

NEW YORK, May 10.—General Sedgwick was killed yesterday, in the battle at Spotsylvania C. H. This is official.

#### WHAT IS THE CAUSE OF DISEASE

THE primary cause of every disease that flesh is heir to is impurity of the blood. The blood becomes impure from many causes. Impure air or impure water, eating of unwholesome food, and exposure are among the prime causes of impurity of the blood. The symptoms are giddiness, headache, faint thoughts, eyestrain, heart trouble, irregular pulse, constipation of the bowels, bad taste in the mouth, foul smelling excretions, pains in the back and legs, one or more swelling glands, bright red veins accompanying these, and a long train of troubous lesions and dangerous affection, all which may be caused and cured by taking a few doses of Mr. STRICKLAND'S PILE PILLS. They will purify the blood and stomach, cleanse the liver in a healthy condition. They are peculiarly suitable for chronic and nervous diseases. Every animal and every subject should keep a supply of these, as many diseases are originated by a surfeit of them. They are a safe and safe medicine, and can be taken at any time without danger of exciting cold.
